

Speaker of the House of Representatives welcomed senior professional level teacher, Head of Electronics division, and teachers from Lampang Technical College and discussed on development issues and support a child safety alarm device to help children when they are stuck in the car.

---

24 August 2020

On Monday 24<sup>th</sup> August 2020, at 11.00 hrs., at the meeting room of the Speaker of the House of Representatives, 3<sup>rd</sup> Floor, Parliament Building, H.E. Mr. Chuan Leekpai, Speaker of the House of Representatives, together with Mr. Wiwat Mungkarndee, Advisor to Speaker of the House of Representatives and Hon. Issara Sereewatthanawut, Member of the House of Representatives welcomed Mr. Warawut Sawangwit, senior professional level teacher, Head of Electronics Division, and teachers from Lampang Technical College to discuss on development and support for a child safety alarm device to help children when are stuck in the car. The electronics division considered that an application of technology to promote the prevention and providing the safety to children who are left in vehicles alone are important and be given priority over others. The device is operated by a motion sensor pilot system. In this regard, they showed the device which is invented by students and demonstrated how to use it, and discussed on the expansion into practice.

In this regard, they ask the House of Representatives to seek ways to develop and support such device for benefit in broader area.
